CRAFTED TO LAST

Our Leathergoods are made with thick Full-Grain hides, brass core buckles and heavy cord stitching sewn by hand. Each piece of leather we select possesses a unique, natural appearance that ages gracefully as time goes on while keeping its original strength.

100% SATISFACTION

We stand behind every single benchcraft product we ship with a 100% satisfaction guarantee from defects due to materials or workmanship. If you are not satisfied with the product you receive from us, we will work with you to find a solution that meets your expectations.

AMERICAN QUALITY

From our home in Northern Indiana, we are dedicated to sourcing materials and components from the USA whenever possible.

This commitment to American-made quality reflects our values, supports local industries, and ensures our products meet the highest standards met with a satisfaction guarantee.

**MADE
in the
USA**

FULL-GRAIN LEATHER

Once customers experience the unmatched comfort and timeless quality of full-grain leather belts, they rarely look back. Bonded, split, or synthetic leathers simply don't compare.

Our Heritage Grade Leather is crafted with care from full-thickness hides, sustainably sourced as a co-product of American cattle farming. Spanning Texas to Montana and Pennsylvania to Washington, every hide reflects the dedication of these hardworking ranchers.

PROPERLY SIZE & FIT YOUR HOLSTER BELT

The right fit and style is a must to safely carry in comfort.

SIZE UP!:

Make sure there is room if you are carrying your sidearm inside the waistband. We suggest 4" added to your pant size, or 2" added to your belt size to determine your belt size for IWB comfort.

STEEL CORE OR HOLSTER BELT:

It all comes down to weight. Choose a steel core if you are planning to carry over 5 pounds.

If you are carrying a lighter sidearm, a heavyweight holster belt will deliver more than enough strength along with the full comfort of full grain leather.

A steel core belt with three layers of construction is rugged by design, but surprisingly comfortable. It will allow those with heavier sidearms or other equipment such as flashlights, extra mags or tools to carry them without feeling any sag between loops.

Great for Law Enforcement, Military, Construction and Electrical Linemen.
